Tiny but very correct colt foal, unusual colour and very good movement. Dam 29.5". This colt is a real pocket rocket full of life and so eye catching. Really nice breeding on both sire and dams side, would be an asset as a potential stallion to any miniature stud wanting to breed duns. This is a well put together, eye catching gelding who moves beautifully and would make a lovely ridden or driven pony. His paternal grandsire was a well know performance pony both as a stallion and later as a gelding. (Sam of Quimper) The dams breeding goes back to HRE which is also known for its performance ponies. Magellen is red and white in his winter coat and a beautiful liver and white in his summer coat.

Mggs: Strathlene Harvey (AF1188/S98-071)

This substantial young stallion has an exceptional temperament. He was trained by myself while I was walking with a stick waiting for a knee replacement. He has bone and feet to die for and moves very well. I have retained a yearling colt by Apollo and I am well pleased with him. Apollo could also have a great future as a ridden or driven pony. I will miss this guy but he is related to too many of my mares. Bloodlines include Marshwood and French breeding from Oke Du Tregor.
